We reserve the right to close this advert early if we are able to appoint to the vacancy before the advertised closed date.

Salisbury Medical Practice is the largest GP Practice in Salisbury, providing patient care across 4 sites. We are proud to host three Partner owned buildings – Fisherton House (the main site), Bemerton Heath Surgery and Bishopdown Surgery and an NHS owned site – Wilton Health Centre.

We deliver care to over approximately 24,000 patients in Salisbury and the surrounding areas.

We are a teaching practice. We mentor GP registrars and host medical students in their General Practice placements, both 3rd year students and final year students. We also train already qualified nurses on the job to be able to perform a wider variety of procedures by send them on training courses – we supported a HCA to become a Nurse Associate last year and are currently supporting another of our HCAs this year at University to become a Nursing Associate. We have helped non-clinical staff members gain foundation degrees in operational management and we are supporting staff through NVQs and other apprenticeship courses.

The Practice is joined by Harcourt Medical Centre to form the Sarum Cathedral Primary Care Network (PCN). As a PCN we provide excellent elderly care via the Care Home & Frailty Service, based at Bemerton Heath, who visit elderly members of the community at home or in care facilities when they can't visit the practice. COVID dependant, we also work together to provide more accessible services for patients via our extended hours clinics. We have also recently just finished our COVID Vaccination drive in the Salisbury Cathedral.

Salisbury itself is a beautiful city to work and live, centrally you will find the historic Salisbury Cathedral which boasts the largest spire in the country. Stonehenge and Old

Sarum are both just on the outskirts of the city which make a great day out for all ages! Salisbury is on a direct train route to London Waterloo and is a fantastic location from local beaches down in Dorset, the A303/A30 to Cornwall and Devon and we are right on the doorstep of the New forest. There are plenty of local grammar, secondary schools to choose from as well as nurseries and primary schools.
